Bewerbung als Process Engineer Lithography (d/m/f) | Ref. 22816

Sehr geehrte Frau Kleierl,

Lithographie ist das Herzstück der Halbleiterfertigung und genau an der Schnittstelle von Physik, Optik und Prozesssteuerung fühle ich mich zu Hause. Als promovierter Physiker mit tiefgreifender Expertise in optischer Wellenfront Kontrolle, datenbasierter Prozessüberwachung und experimentellem Systemdesign bewerbe ich mich sehr gerne auf die Stelle als Process Engineer Lithography bei ams OSRAM in Premstätten.

Den direkten Bezug zur Halbleiterindustrie erwarb ich während der **ASML** und **ZEISS Semiconductor** Summer Schools, wo ich die physikalischen Grundlagen und industriellen Prozessherausforderungen moderner EUV DUV Belichtungssysteme sowie der Präzisionsoptik intensiv erarbeitete. Dieser Einblick in Belichtungstools, Overlay Kontrolle und CD Uniformität ergänzt unmittelbar meine Doktorarbeit: Ich habe vier Jahre lang **Wellenfrontaberrationen gemessen, analysiert und iterativ korrigiert**, exakt das physikalische Prinzip, das in der Lithographie über die Präzision von Focus und Overlay entscheidet. Mein selbst entwickelter Regelkreis entspricht methodisch der täglichen Überwachung und Stabilitätskontrolle einer Lithographie-Linie.

Die datenbasierte Prozesssteuerung ist ein weiterer meiner Kernbereiche. Im Rahmen meiner Promotion habe ich Mess und Steuerdaten aus Kameras, Wellenfrontsensoren und Deformable Mirrors in Python Pipelines ausgewertet, statistisch überwacht und zur automatischen Entscheidungsfindung genutzt. Am IPHT Jena entwickelte ich zudem das Python-Paket **SpectraMap** für die automatisierte Datenanalyse und Klassifikation hochdimensionaler Messdaten, eine Fähigkeit, die direkt in die datengetriebene **Yield-Optimierung** und Prozessüberwachung bei ams OSRAM einfließen kann. Meine Erfahrung in der Durchführung strukturierter Experimente (DoE), der statistischen Auswertung von Ergebnissen und der Ableitung konkreter Prozessverbesserungen ist durch drei peer reviewed Publikationen belegt.

Ich schließe meine Promotion im Juni 2026 ab, lebe seit vier Jahren in Österreich und freue mich darauf, den Sprung von der akademischen Forschung in die industrielle Fertigung bei einem globalen Technologieführer wie ams OSRAM zu machen. Mein Aufenthaltstitel wandelt sich nahtlos in eine Arbeitsbewilligung um. Ich freue mich sehr auf ein persönliches Gespräch.

Mit freundlichen Grüßen,

Juan David Muñoz Bolaños
